

Rs.10,000 se High-Growth Business

90 Din ka Full Action Roadmap

Ek simple, service-first plan: market samjho, pehla client lao, delivery standard banao aur revenue ko disciplined tareeke se scale karo.

REALITY CHECK

Lakhs = revenue target, guarantee nahi.

Profit, client results aur timeline aapke skill, market, price aur execution par depend karte hain.

01

VALIDATE

Sahi customer + pain

02

SELL

Advance + clear scope

03

SYSTEMIZE

Repeat + retain + refer

Aaj ka first move:

20 local businesses ki list banao, 5 ka quick audit karo aur 5 honest conversations shuru karo.

START HERE

Pehle ye sach samjho

Business sirf idea nahi hota. Yeh problem ko paid, repeatable solution mein badalne ka system hai.

BUSINESS =

Problem + Paid solution + Repeat process

REVENUE

TOTAL SALES

Client se billed total paisa. Isme expenses abhi minus nahi hue.

PROFIT

BACHNE WALA PAISA

Revenue minus delivery, tools, tax aur other valid costs.

CASH

ACTUAL INFLOW

Invoice aur bank/UPI mein aaya paisa same nahi hota.

NO HYPE

Rs.1 lakh/month ko target samjho, promise nahi.

Yeh guide monthly turnover/revenue ka example dikhati hai. Aapko pehle demand validate karni hogi, client ko value deni hogi aur payment collect karna hoga. Har market mein result alag hota hai.

90-day map at a glance

DAYS 1-7

DAYS 8-30

Sell a pilot

Calls, advance payment, first delivery

DAYS 31-60

Retain clients

DAYS 61-90

CORE SYSTEM

Business mein actually kya karna hota hai?

Aapko har din in 6 blocks ko chalana hai. Kisi ek block ko ignore karoge, growth ruk jayegi.

MINIMUM START STACK

- Phone + data Aapke paas smartphone aur stable internet ho to shuruat possible hai.
- WhatsApp Business Profile, catalog, greeting, labels aur quick replies set karo.
- Drive / Sheets Lead list, proposals, delivery files aur cash record ek jagah rakho.
- Simple creation tools Free editor/template tools se basic demo banao. Paid tool tab lo jab sale aaye.

4 QUESTIONS BEFORE YOU START

- 1 Kaunsa customer aap agle 48 ghante mein reach kar sakte ho?
- 2 Unka costly ya urgent problem kya hai?
- 3 Aap 7-14 din mein kaunsi clear deliverable de sakte ho?
- 4 Aapko payment lene ke liye kaunsa proof/process chahiye?

Daily focus question

"Kis customer ka problem itna important hai ki woh aaj hi solution ke liye baat kare?"

Idea se pehle customer conversation. Logo, website aur office baad mein.

PICK A PATH

Rs.10,000 mein kaunsa business model better hai?

Har model valid hai. Lekin kam capital mein service-first model inventory ka risk kam karta hai.

MODEL	SERVICE-FIRST	CURATED RESELLING	HOME / CUSTOM PRODUCT
Starting capital	Rs.1K - Rs.3K	Rs.5K - Rs.10K	Rs.3K - Rs.10K
First-sale speed	Often 7-21 days	Often 7-30 days	Often 14-30 days
Cash risk	Low: no big stock	Medium: inventory can sit	Medium: materials can waste
Gross margin potential	High if skill/service is clear	Lower to medium	Medium to high
Best when	Phone + time + outreach	Supplier access + product eye	You can make/customize

RECOMMENDED FOR THIS ROADMAP

Local Growth Service / Micro-Agency

Local businesses ko content, profile setup, WhatsApp inquiry flow aur simple follow-up systems chahiye hote hain. Aap ek clear monthly service package bech sakte ho. Pehle client se advance lo; phir delivery ke liye tools ya freelancer par spend karo.

Phone aur 2-4 hours/day?
Service-first test karo.

Trusted supplier already hai?
Reselling ko small pre-order se validate karo.

Product bana sakte ho?
Small batch ya made-to-order se start karo.

Rule: Demand test kiye bina bada stock, paid ads ya expensive course par Rs.10,000 kharch mat karo.

RECOMMENDED EXAMPLE

Local Growth Studio: aap kya bechoge?

Yeh ek illustration hai. Aap apne skill ke hisaab se content, catalogue, appointment flow ya lead follow-up service choose kar sakte ho.

SAMPLE 30-DAY OFFER

"[Niche] ke liye 12 short videos + profile/WhatsApp inquiry setup + weekly activity report."

Lead output aur process promise kar rahe ho, fake sales/lead guarantee nahi. Client ke goal ko samjho, scope likho aur weekly review karo.

- | | | | |
|--|---|---|---|
| 1 WHO Ek narrow niche: salon, tutor, boutique, gym, cafe... | 2 WORK Fixed number of deliverables: e.g. 12 reels + captions. | 3 PROCESS Weekly approval, publish plan, simple inquiry tracker. | 4 PRICE Pilot then monthly retainer; payment and revision limit clear. |
|--|---|---|---|

VALIDATE BEFORE SELLING

- Talk to 5 owners Ask how they get inquiries and what stops growth.
- Find visible gap Weak profile, no CTA, irregular posts, slow replies.
- Create one sample Use public profile only; label it sample, not their actual work.
- Ask for a paid pilot Free work only for a tightly limited proof piece.

WHO TO AVOID AT FIRST

- Only wants free work No budget or no urgency means poor fit.
- Asks for false promises Never promise guaranteed sales, followers or medical/financial outcomes.
- Late-payer pattern No written scope or advance = do not start.
- Too many unrelated requests Narrow scope protects your time and profit.

One niche for 30 days: Jab tak aap 20 real conversations aur 1 paid pilot complete na kar lo, har din business idea change mat karo.

USE MONEY CAREFULLY

Rs.10,000 starter budget

Capital ka kaam aapko customer ke paas pahunchana aur delivery ready rakhna hai - shiny branding kharidna nahi.

Rs.10,000 = learning + customer access + cash buffer

1K

Tools + templates

Free tools first; only essential template/data backup.

1.5K

Research + travel

Local visits, data pack, small printout.

2K

Demo portfolio

One sample shoot/edit or small proof asset.

1.5K

Prospecting

Calling/data, local meeting, basic promo test.

2.5K

Delivery capacity

Spend only after a client advance arrives.

1.5K

Reserve

Refund, correction, slow month or emergency.

CASH POLICY

Advance pehle. Scope clear pehle. Spend baad mein.

- Pilot payment Small pilot ke liye full payment ya meaningful advance lo.
- Monthly plan Work start karne se pehle agreed billing date + written confirmation lo.
- Separate record Personal aur business cash ko spreadsheet / notebook mein alag track karo.

Do NOT buy first:

Expensive logo package | office rent | huge inventory | bought followers | loan-funded ads | course after course.

FIND DEMAND

Niche choose karne ka practical formula

Ek narrow customer group choose karo jiska pain visible ho, budget ho aur jise aap easily reach kar sako.

NICHE = reachable buyer + urgent problem + repeat need + simple deliverable

30-POINT NICHE SCORE

Score every idea from 1 to 5

- | | | |
|---|-----------------|---|
| 1 | Urgency | Kya problem abhi hurt kar raha hai? |
| 2 | Budget | Kya owner paid solution consider kar sakta hai? |
| 3 | Reach | Kya aap 100 prospects ki list bana sakte ho? |
| 4 | Repeat | Kya monthly/recurring need hai? |
| 5 | Proof | Kya simple demo/result process dikh sakta hai? |
| 6 | Delivery | Kya aap 7-14 din mein value de sakte ho? |

22+/30: 30 din ke liye choose karo. 18 se kam: observe karo, but start mat karo.

EASY-TO-REACH EXAMPLES

- Salons / beauty studios
- Gyms / yoga trainers
- Boutiques / local fashion
- Cafes / restaurants
- Tutors / coaching centers
- Photographers / event vendors
- Home service providers
- Consultants / agencies

Respect sector rules and client privacy. Do not make regulated or unverified claims.

5 customer-research questions

- | | |
|---|---|
| <p>⊙ Aapko new inquiry usually kahan se milti hai?</p> <p>⊙ Pichhle month marketing mein kya try kiya?</p> <p>⊙ Aap trial/pilot ke liye kya consider karenge?</p> | <p>⊙ Customer response ya follow-up mein kya problem aati hai?</p> <p>⊙ Agar yeh issue solve ho jaye, business par kya impact hoga?</p> |

PRODUCTIZE IT

Offer aur price: buyer ko clear answer do

Strong offer complicated nahi hota. Client ko exactly pata hona chahiye ki kya milega, kab milega aur kitne mein milega.

OFFER = who + exact work + timeline + proof process + price + boundary

14-DAY QUICK START

Rs.4,999

5 short clips | profile audit | inquiry CTA | 1 review

Entry pilot. Learn quickly.

SCOPE FIRST

CORE MONTHLY

Rs.9,999

12 short clips | captions | calendar | weekly activity report

Best initial retainer.

SCOPE FIRST

GROWTH MONTHLY

Rs.14,999

16 clips | content plan | inquiry tracker | priority review

Only after repeatable delivery.

SCOPE FIRST

WHAT TO SAY

"Main aapke liye [exact deliverables] [timeline] mein complete karunga. Har week hum activity aur response dekhenge. Sales ka false guarantee nahi; process aur scope clear rahega."

Price decision: delivery time + outsource cost + buffer + client value. Sirf competitor ka price copy mat karo.

WRITE THESE BOUNDARIES

- Deliverables Kitne pieces / posts / visits?
- Revisions Kitne revisions included?
- Timelines Client approval late ho to date shift hogi.
- Payment Advance, balance and pause condition.

Pricing tip: Pilot cheap rakh sakte ho, lekin free ongoing work mat do. Paid pilot se buyer ka seriousness aur aapki delivery dono validate hoti hai.

Illustrative revenue staircase

READ THIS CAREFULLY

Rs.1 lakh is an example of billed monthly revenue, not take-home profit. Client churn, collection delays, freelancer costs, taxes, refunds and your own time change the result. Do not borrow or over-hire to chase a target.

DAILY SALES ENGINE

Lead machine: har din buyer conversations

Aapko paid ads se pehle free/low-cost channels master karne hain. Respectful outreach aur genuine observation sabse strong starting advantage hai.

01

Google Maps + local walk

Niche search karo; profile gaps note karo; owner hours respect karo.

02

Instagram / WhatsApp

Relevant post par thoughtful comment; permission se audit/idea bhejo.

03

Referrals / partners

Photographer, printer, web designer, trainer se warm introduction lo.

Daily minimum:

30 researched leads **8** tailored messages **3** follow-ups **1** audit/video **1** call ask

FIRST MESSAGE - PERSONALIZE IT

"Namaste [Name], maine aapka [business] profile dekha. [Specific honest observation] ki wajah se nearby customer ko action lena thoda unclear lag sakta hai. Maine 2 simple content/WhatsApp ideas note kiye hain. Kya main 10-minute free audit bhej doon? Agar useful laga to 14-day paid starter plan discuss kar sakte hain."

Follow-up after 2-3 days: "Hi [Name], audit ka short version bhej doon? Agar ab priority nahi hai, main follow-up close kar deta hoon."

PROSPECT SHEET COLUMNS

- Business + owner name
- Contact / source
- Visible gap / observation
- Date contacted
- Reply / call date
- Offer sent?
- Outcome / next action

No bulk spam, no scraped private data, no repeated pressure. Permission and relevance build a better brand.

CONVERT ETHICALLY

15-minute sales call aur clean onboarding

Aapka goal pressure banana nahi hai. Need samjho, scope explain karo, clear next step do aur client ko informed decision lene do.

CALL FLOW

- | | |
|--|---|
| 1 OPEN
"Aaj main aapka goal samajhunga; agar fit hua to plan share karunga." | 2 DIAGNOSE
"New inquiry kahan se? Biggest bottleneck? Desired outcome?" |
| 3 RECAP
"Toh issue X hai aur priority Y. Kya main sahi samjha?" | 4 PRESENT
Scope, timeline, inclusions, exclusions, weekly review. |
| 5 CLOSE
"Kya hum Friday se paid pilot start karein? Invoice + scope share karta hoon." | |

COMMON OBJECTIONS

- "Mehnga hai" Narrow pilot / scope explain karo; fake discount pressure nahi.
- "Result guarantee?" Deliverables + reporting promise karo, false sales guarantee nahi.
- "Soch kar bataunga" Next date fix karo; short proposal / recap bhejo.

BEFORE WORK STARTS

- ☒ Written scope + exclusions
- ☒ Price, advance, billing date
- ☒ Due dates + approver name
- ☒ Revision limit + asset rights

Simple close: "Agar aapko scope clear lag raha hai, main 50% advance invoice aur kickoff checklist abhi bhej deta hoon. Payment confirm hote hi [date] se work start karenge."

KEEP CLIENTS

Delivery aur retention: value ko visible banao

Good work deliver karo, approvals track karo, updates do aur client ko har week samajh aaye ki kya progress hui.

KICKOFF

Goal, customer, offer, brand preference, assets, login/access policy, approver.

DELIVER

Checklist follow: create, review, approve, publish, tracker update.

REPORT

Work delivered, response data, learnings, next action, renewal date.

ONE-PAGE WEEKLY CLIENT REPORT

Client: _____ Week: _____

- **Delivered** 4 approved clips, captions and CTA links published.
- **Observed** Two topics had more saves/messages; one CTA needs simpler wording.
- **Next action** Create 4 similar hooks; test reply-time process next week.

Renewal note: "Is month humne X deliver kiya aur Y seekha. Agle 30 din mein [next clear plan] suggest karta hoon. Samne apni next deliver date take confirm kar den."

● **Decision needed** Please approve next week topic

Reputation rules:

No fake testimonial | No stolen assets/music | No hidden extra fee | No missed deadline without early update | Client data private rakho.

PROTECT THE BUSINESS

Legal, money aur ethics basics

Business rules activity, state, sector aur turnover ke hisaab se alag ho sakte hain. Current official rules check karna aapki responsibility hai.

STARTER CHECKLIST

- ☐ Money record
Every payment, expense and refund ka date-wise record.
- ☐ Clear invoice
Your name/business details, scope, amount, due date.
- ☐ Written scope
WhatsApp/email confirmation before work starts.
- ☐ Business separation
Personal spend aur business cash alag ledger/UPI.
- ☐ Rules check
Current tax, registration, municipal or sector rules verify.
- ☐ Data safety
Client logins, leads and files private rakho.

For current registration/tax applicability, use official government resources or a qualified CA. This guide is not legal or tax advice.

NON-NEGOTIABLE ETHICS

- No fake proof Never buy followers/reviews or claim results you cannot verify.
- No pressure spam Ask permission, offer value, respect no.
- No risky promises Especially health, finance, legal or regulated claims.

CASH PROTECTION

- Advance rule Payment before meaningful work / hard cost.
- Pause rule Overdue payment? Pause extra scope politely in writing.
- Reserve rule Keep buffer; never depend on one client only.

SMART RISK RULE

Test small -> collect feedback -> improve -> reinvest. Loan, long contract, large stock ya hire tabhi jab aapke paas repeated demand aur cash visibility ho.

Agar kisi offer mein aap customer ko clearly explain nahi kar sakte ki kya milega aur kya nahi milega, usse abhi sell mat karo.

Action is the real business plan.

One customer. One offer. One daily sales habit. Isi focus se Rs.10,000 ka smart test aage chal kar real business ban sakta hai.

- 1 **DAY 1** Ek niche choose karo aur score sheet fill karo.
- 2 **DAY 2** 50 prospects list karo; unke visible gaps note karo.
- 3 **DAY 3** 3 sample ideas / ek short audit ready karo.
- 4 **DAY 4** Offer, price, scope aur advance policy likho.
- 5 **DAY 5** 5 tailored messages + 5 calls/visits shuru karo.
- 6 **DAY 6** Discovery calls karo; needs aur objections note karo.
- 7 **DAY 7** Numbers review; best signal ke saath next week repeat karo.
